India's workforce faces rising medical inflation, reveals report

The report also revealed nearly 59 per cent skip their annual health checkups, while 90 per cent neglect regular doctor consultations to monitor their health

Anjali Singh | Mumbai

2 min read Last Updated : Nov 21 2023 | 5:37 PM IST

In a study shedding light on the health of India's workforce, a new report by insurtech company Plum, titled "Health Report of Corporate India 2023," revealed that India has one of the highest medical inflation rates in Asia, reaching 14 per cent. This surge in healthcare costs has put a financial burden on employees, with 71 per cent bearing the financial burden by personally covering their healthcare expenses.

Studying in the UK costs Rs 30-40 lakh/year: Key factors to consider

Study abroad: With rising tuition fees, living expenses, and unpredictable currency fluctuations, managing your finances effectively is crucial

Surbhi Gloria Singh | New Delhi

7 min read Last Updated : May 21 2024 | 4:27 PM IST

Are you ready to spend up to Rs 30-40 lakh per year for your child's education abroad? On average, studying at a college in the UK costs about that much, which is lower than the expenses in the US and Australia. College abroad is expensive. For many middle and upper-middle-class families, hence, the dream of sending their child to a top college abroad requires careful financial planning.

https://www.business-standard.com/finance/personal-finance/studying-in-the-uk-costs-rs-30-40-lakh-year-key-factors-to-consider-124052100941_1.html

Asset allocation is the biggest driver of your overall investment returns

Investors often worry about which stock to buy or which fund to invest in.

However, asset allocation explains most of variation in investment returns and portfolio performance - both across time as well as across funds.

Diversification spreads exposure reducing concentration risk (all eggs in one basket?!) Uncorrelated assets move differently - lowering volatility & enhancing stability

- ✓ Nifty 50 have topped the table only in 1 out of last 10 years
- ✓ US Equities (S&P500*) has been a top performer in 5 out of 10 years
- ✓ Gold has been best performer for 4 years, but also the worst performer in 2 out of 10 years

ALL asset classes delivered positive returns in 8 out of 14 years.
